The spectators gave the youngster unstinted applause as he clicked off the points with a precision and skill that could hardly be excelled.

On his fourth time at the table Sutton got the balls under control and showed why he is called the "nurse king." He also did some admirable gathering work. In his forty-second attempt he found the three balls in a line against the rail at the head of the table near the left hand corner. A masse was impossible, and Sutton banked the length of the table and counted, which drew forth uproarious applause.

His one hundredth shot was a pretty kies in the corner and he went along with his one hundred and forty-ninth effort, a single cushion shot, which he missed by a hair. Hoppe was undismayed and retorted with a cluster of 199 finely played caroms, missing on a one cushion had fire in his eye when he came to bat for his fifth inning. Cechran Furnishaes Surprise.

The most overwhelming defeat of the tourney was that suffered by Welker Cochran at the hands of George B. Sutton in the afternoon. It was an extraordinary reversal of form on the part of the youngster, who had performed so brilliantly on the previous day in his match with Ora Morningstar, the Manson prodigy averaging 44-5. Cochran was utterly unable to play with effect yesterday. He spent two hours watching for an average of 40. Sutton was in wonderful stroke, and while he made no long runs he scored double figures in all but his second inning.

Sutton gave a superb exhibition of the balkline nurse in its most lavuriant form and furnished the spectators with an exhibition that was ascond only to that of the incomparable Hoppe.

His run of 52, collected in his sixth finning, was a remarkable piece of roanouvring along the left hand side rail.

It was the performance of a master, as Sutton held the lvortes always under control, weaving the counts along the line in skifful fashion.

On his next turn at the table Sutton had the globes placed in the corner and he was clicking off the caroma with most perfect stroke and without any straining of effort. He miscalculated the distance, however, and at 35 he had to retire, as he falled to drive one of the edipect balls beyond the lines.

Button completed his 400 with an unfinished run of 74, which was another fine piece of nursing on the rail.

Cochran played without judgment of distance, was in poor stroke and made the poorses showing since he started as a balkitiner.
